# EDUARDO JUAREZ

*Software Engineer*

*11+ years | Frontend Developer · React · Angular · TypeScript · Roku/BrightScript*

Spain · +34 617 913 802 · edujuarezcba@gmail.com · LinkedIn · GitHub · Portfolio

*Italian Citizenship (EU) · Immediate Availability · Remote / Hybrid / On-site across Spain & the EU*

## PROFESSIONAL SUMMARY

Software Engineer with 11+ years of experience in software development, including 5+ years focused on web frontend development with React, Angular and TypeScript, and 6 years building Roku streaming applications for Disney Streaming products, including ABC, Nat Geo and FX. Experienced in developing scalable, production-ready applications and collaborating with distributed Agile teams. Currently working as a freelance developer at Tuchi Digital, building and deploying web solutions for real clients, including advanced landing pages, e-commerce platforms and digital product storefronts, with hands-on experience across frontend development, backend integrations, payments and transactional emails.

## TECH STACK

**Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3

**Frontend:** React.js, Next.js, Angular, Redux, Tailwind CSS, Bootstrap, LESS/SASS, jQuery, Responsive Design

**Backend / APIs:** Node.js, REST APIs, AWS Lambda, Cloudflare Workers, PostgreSQL, SQL, service integration

**Testing & QA:** Unit Testing, Integration Testing, E2E Testing, Test Automation, Playwright, Cypress, Manual Testing, Code Reviews

**DevOps & Tools:** Git, GitHub, AWS, Cloudflare, CI/CD Pipelines, Build & Deployment Automation, Jira, Confluence

**UI & Animation:** GSAP, ScrollTrigger, Framer Motion, React Icons, Lucide React

**IA - Tools:** Claude Code, Codex, GitHub Copilot, Amazon Q, IA Agents, Prompting

**Streaming / OTT:** Roku SDK, BrightScript, SceneGraph, Custom Component, Ads, Charles Proxy, OTT/CTV Platforms

**Methodologies :** Agile, Scrum, Kanban, Component-Based Architecture, Code Review, Pair Programming

**UX & Quality:** Web Accessibility (WCAG, ARIA), Web Analytics, Performance Optimization, Technical SEO

## PROFESSIONAL EXPERIENCE

### **Freelance Full Stack Developer** · tuchidigital.com

*jul 2026 · Present | Spain*

**Stack:** React 19, Next.js, TypeScript, Vite, Tailwind CSS, PostgreSQL, Supabase, Stripe, AWS

- Design and develop websites, landing pages and e-commerce solutions for real clients, from initial requirements and UI implementation to deployment and ongoing maintenance.
- Built reusable React components, custom hooks and Context API for state management, implementing client-side navigation with React Router across real-world e-commerce websites and professional landing pages.
- Implemented responsive UI patterns and Framer Motion animations, focusing on usability, accessibility and consistent cross-device experiences.
- Manage the full development lifecycle, including client communication, technical implementation, production deployment and post-launch improvements.

### **Frontend Developer** · Globant

*Developed enterprise web applications and UI platforms for Fortune 500 clients (EY, Disney, TTEC) across distributed Agile teams.*

*Jan 2015 - april 2026 | Córdoba, Argentina*

**Project: Disney Streaming — Roku Apps (ABC, ABC News, Nat Geo, FX Now)** *2021 – 2026*

*Brightscript, Scenegraph, XML, Charles Proxy, Figma, Node, CI/CD, Unit testing*

- Roku Developer specializing in **BrightScript and SceneGraph** with 6+ years of experience building large-scale streaming apps for Disney Streaming (ABC, Nat Geo, FX). Expert in reusable UI component architecture, analytics/ad integrations, and build automation with Node.js

**Project: EY (Ernst & Young) — Internal Enterprise Web Application** *2020 – 2021*

*React, JavaScript, TypeScript, HTML5, CSS3*

- Maintained and modernized a large-scale React application, refactoring core components and routing modules.
- Implemented lazy loading to improve initial load performance and collaborated with QA and international teams in an Agile/Scrum environment.

**Project: TTEC (Teletech Consulting) — Interactive E-Learning Platform** *2017 – 2020*

*React, JavaScript, HTML5, CSS3, Bootstrap*

- Developed interactive e-learning applications and custom modules including quizzes, mini-games, animations, and interactive experiences.
- Built reusable React components and client-side state management to support learner progress and standardized UI patterns across the platform.

**Project: The Walt Disney Company — Parks & Cruises Ticketing Platform** *2015 - 2017*

*Angular, JavaScript, HTML5, CSS3, PHP, JQuery*

- Maintained and enhanced a global Angular ticketing platform, resolving UI and component issues in a high-traffic production environment.
- Implemented WCAG 2.1 accessibility improvements, including ARIA, keyboard navigation, and semantic HTML, while collaborating with QA, Design, and Product teams.

## TECHNICAL ACHIEVEMENTS

- 11+ years of professional experience at Globant, contributing to global projects for Fortune 500 clients including Disney, EY, and TTEC.
- Currently working as a Freelance Frontend Developer, building modern web applications with React, TypeScript, Next.js, and Tailwind CSS, while continuously expanding my frontend expertise.
- Experienced working in English-speaking, distributed teams across the United States, Europe, and Latin America.
- Continuously learning and applying modern frontend practices, including testing, performance optimization, reusable architectures, and AI-assisted development with GitHub Copilot and Cursor.

## EDUCATION

**Associate Degree in Video Game Development & Virtual Simulations** · IES Siglo 21, Córdoba, Argentina · 2010 – 2014

QA Manual Testing — Coderhouse (online) · 2024

## LANGUAGES

**Spanish:** Native **English:** B2 (Professional) — Daily professional use with U.S.-based clients and international teams

## ADDITIONAL INFORMATION

- Italian Citizen — Full work authorization across the European Union (no sponsorship required).
- Based in Barcelona, Spain. — Immediate availability for Remote, Hybrid, or On-site opportunities.
- Open to Frontend Engineer, Roku Engineer or Streaming Platform Engineering roles.
